EXPERIENCE

StartUp | Techpyro

📅 04 2023 - 08-2023

📍 Haridwar, India

- Frontend Developer
- I have work on some live Projects and gain experiences.

PROJECTS

Jotion | Notion-Clone | Github | Website

- I'm working on a "Notion Clone" in Next.js 13 with Tailwind CSS, Shadcn UI, Lucide React Icons, and more. Secure user access is powered by Next.js Clerk Authentication, and for robust server-side functionality, we've integrated Convex. Let's boost productivity together

E-commerce Website/footwear | Frontend Backend | Website

- e-commerce site, detailing tech used (Next.js, MongoDB, Node.js, CSS/Tailwind CSS, Material UI). List key features (product browsing, user auth, etc.), challenges faced, accomplishments (performance, user feedback), and impact (conversion rates, engagement). Optionally, include a GitHub link to showcase code skills.

Ed-Tech Project/StudyNotion | Frontend Backend | Website

- Created an Education website with React, MongoDB, Node.js, and Express. Utilized React hooks and React Redux for frontend state management. Designed with CSS and Tailwind CSS for responsiveness. Features include course listing, user authentication, and instructor dashboard. Overcame challenges like data handling and performance optimization

EDUCATION

A highly motivated and adaptable professional with a passion for technology and problem-solving. With a background in computer science and hands-on experience in software development, I am committed to delivering innovative and efficient solutions.
